DETAILED ACTION

This office action is a response to the amendment filed on 5/28/2004.

Information Disclosure Statement

1. The information disclosure statement filed 5/28/2004 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because there is no proper PTO-1449 form for the present invention. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as a triple antiparallel (AP) coupled free layer structure is located between first and second pinned layer structures in a dual spin valve sensor and the triple AP coupled free layer structure includes first, second and third antiparallel (AP) coupled ferromagnetic free layers and nonmagnetic first and second antiparallel (AP) coupling layers. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 44-53 are allowed.
